the former German naval ship WALDEMAR KOPHAMEL, which was scheduled to serve as a submarine supply ship and nearing completion cannot be commissioned on time because of damage to pistons. So far as is known, Koss (fnu), ship designer of the VEB Karl Liebknecht Works, will receive instructions to try to purchase 36 pistons 25X1

It also was learned that, through Koss's fault, the completion was considerably delayed because of the failure of the subcontractors to deliver the special generators. The commissioning of this submarine supply vessel now depends on Koss's obtaining the 36 pistons 25X1
